					ntation of ROM after testing is not required.	Forearm Pronation			
YES (you	OST-TEST ADDITIONAL LIMITA will be asked to further describ LAIN WHY THE POST-TEST AD	be these limitations in Se	ection 6 belo	nw)					
				ON V - PAIN					
5A. ROM MOVEMENTS PAINFUL ON ACTIVE, PASSIVE AND/OR REPETITIVE US Are any ROM movements painful on active, passive and/or repetitive use testing? (If yes, identify whether active, passive, and/or repetitive use in question 5D)			<i>iful movemer</i> to functional	nts), does the loss or	the If no (<i>the pain does not contribute to functional loss or additional limitation of ROM</i>), explain why the pain does not contribute:				
RIGHT ELBOW	Yes No	Yes (you will be these limitations	e asked to fu s in Section	rther describe 6 below)					
LEFT Yes Yes (you will be asked to further describe these limitations in Section 6 below) ELBOW No No									
5B. PAIN WHEN USED IN WEIGHT-BEARING OR IN NON WEIGHT-BEARING									
Elbow Is there pain when the joint is used in weight-bearing or non weight-bearing? (If yes, identify whether weight- bearing or non weight-bearing), does the p to functional loss or additional limita				pain contribute ation of ROM?		ot contribute to functi (), explain why the pain	onal loss or additional does not contribute:		
RIGHT ELBOW	Yes No	Yes (you will be these limitations	2 asked to fu s in Section	rther describe 6 below)					
LEFT ELBOW	Yes No	Yes (you will be these limitations No	e asked to fu s in Section	rther describe 6 below)					

PATIENT/VETER	RAN'S SOCIAL SECURITY NO.]-[[]			
SECTION V - PAIN (Continued)									
5C. LOCALIZED TENDERNESS OR PAIN ON PALPATION									
Elbow	Does the Veteran have localized tenderness or pain to palpation of joints or soft tissue?	If yes, describe includ	ling loo	ation, s	everity	y and re	elations	ship to condition(s) listed in the Diagnosis section:	
RIGHT ELBOW	Yes No								
LEFT ELBOW	Yes No								
5D. COMMENT	S, IF ANY:								
	SECTION VI - FUN	CTIONAL LOSS AND	ADD	ITION		MITAT	10N (OF ROM	
NOTE: The V	A defines functional loss as the inability, due to								
normal excursi movements in Using informat	ion, strength, speed, coordination and/or endura different planes. tion from the history and physical exam, select tation of ROM after repetitive use for the joint	nce. As regards the joint the factors below that co	s, fact ntribu	ors of d te to fu	isabili nction	ity resid	le in r	eductions of their normal excursion of	
	JTING FACTORS OF DISABILITY (check all tha		affect	ed):					
	onal loss for <u>left</u> upper extremity attributable to clanate loss for right upper extremity attributable to c								
	onal loss for <u>right</u> upper extremity attributable to o				_	_			
tendon-ti	rement than normal (due to ankylosis, limitation e-ups, contracted scars, etc.)	0		Right		Left		Both	
relaxatio	vement than normal (from flail joints, resections n of ligaments, etc)			Right		Left		Both	
	d movement (due to muscle injury, disease or i ivided or lengthened tendons, etc.)	njury of peripheral		Right		Left		Both	
Excess fa	tigability			Right		Left		Both	
Incoordination	ation, impaired ability to execute skilled moveme	nts smoothly		Right		Left		Both	
Pain on m	novement			Right		Left		Both	
Swelling				Right		Left		Both	
Deformity	,			Right		Left		Both	
Atrophy o	fdisuse			Right		Left		Both	
Instability	of station			Right		Left		Both	
Disturban	ce of locomotion			Right		Left		Both	
Interferen	Interference with sitting Right Left Both								
Interference with standing Right Left Both									
Other, de	scribe:		-		-		-		
NOTE: If any of the above factors is/are associated with limitation of motion, the examiner must give an opinion on whether pain, weakness, fatigability, or incoordination									
could significantly limit functional ability during flare-ups or when the joint is <i>used repeatedly over a period of time</i> and that opinion, if feasible, should be expressed in terms of the degree of additional ROM loss due to pain on use or during flare-ups. The following section will assist you in providing this required opinion.									
	6B. ARE ANY OF THE ABOVE FACTORS ASSOCIATED WITH LIMITATION OF MOTION?								
	YES (If yes, complete questions 6C and 6D) NO (If no, proceed to Section 6D)								

PATIENT/VETERAN'S SOCIAL SECURITY NO.									
SECTION VI - FUNCTIONAL LOSS AND ADDITIONAL LIMITATION OF ROM (Continued)									
Elbow	6C. CONTRIBUTING FACTORS OF DISABILITY ASSOCIATED WITH LIMITATION OF MOTION Elbow Can pain, weakness, fatigability, or incoordination significantly limit functional ability during flare-ups or when the joint is used repeatedly over a period of time? If yes, please estimate ROM due to pain and/or functional loss during flare-ups or when the joint is used repeatedly over a period of time? If yes, please estimate ROM due to pain and/or functional loss during flare-ups or when the joint is used repeatedly over a period of time?

PATIENT/VETERAN'S SOCIAL SECURITY NO.
SECTION XIII - REMAINING EFFECTIVE FUNCTION OF THE EXTREMITIES
 13A. DUE TO THE VETERAN'S ELBOW CONDITIONS, IS THERE FUNCTIONAL IMPAIRMENT OF AN EXTREMITY SUCH THAT NO EFFECTIVE FUNCTIONS REMAINS OTHER THAN THAT WHICH WOULD BE EQUALLY WELL SERVED BY AN AMPUTATION WITH PROSTHESIS? (Functions of the upper extremity include grasping, manipulation, etc., while functions for the lower extremity include balance and propulsion, etc.) YES, FUNCTIONING IS SO DIMINISHED THAT AMPUTATION WITH PROTHESIS WOULD EQUALLY SERVE THE VETERAN. NO IF YES, INDICATE EXTREMITIES FOR WHICH THIS APPLIES: RIGHT UPPER FOR EACH CHECKED EXTREMITY, IDENTIFY THE CONDITION CAUSING LOSS OF FUNCTION, DESCRIBE LOSS OF EFFECTIVE FUNCTION AND PROVIDE SPECIFIC EXAMPLES (brief summary):
NOTE: The intention of this section is to permit the examiner to quantify the level of remaining function; it is not intended to inquire whether the Veteran should undergo an amputation with fitting of a prothesis. For example, if the functions of grasping (hand) or propulsion (foot) are as limited as if the Veteran had an
amputation and prosthesis, the examiner should check "yes" and describe the diminished functioning. The question simply asks whether the functional loss is to the same degree as if there were an amputation of the affected limb.
SECTION XIV - DIAGNOSTIC TESTING
NOTE: Testing listed below is not indicated for every condition. The diagnosis of degenerative arthritis (osteoarthritis) or traumatic arthritis must be confirmed by imaging studies. Once such arthritis has been documented, even if in the past, no further imaging studies are required by VA, even if arthritis has worsened.
14A. HAVE IMAGING STUDIES OF THE ELBOW BEEN PERFORMED AND ARE THE RESULTS AVAILABLE?
IF YES, IS DEGENERATIVE OR TRAUMATIC ARTHRITIS DOCUMENTED? YES NO IF YES, INDICATE ELBOW: RIGHT LEFT BOTH
14B. ARE THERE ANY OTHER SIGNIFICANT DIAGNOSTIC TEST FINDINGS OR RESULTS?
14C. IS THERE OBJECTIVE EVIDENCE OF CREPITUS?
14D. IF ANY TEST RESULTS ARE OTHER THAN NORMAL, INDICATE RELATIONSHIP OF ABNORMAL FINDINGS TO DIAGNOSED CONDITIONS:
SECTION XV - FUNCTIONAL IMPACT
NOTE: Provide the impact of only the diagnosed condition(s), without consideration of the impact of other medical conditions or factors, such as age.
15. REGARDLESS OF THE VETERAN'S CURRENT EMPLOYMENT STATUS, DO THE CONDITION(S) LISTED IN THE DIAGNOSIS SECTION IMPACT HIS OR HER ABILITY TO PERFORM ANY TYPE OF OCCUPATIONAL TASK (such as standing, walking, lifting, sitting, etc.)? YES NO IF YES, DESCRIBE THE FUNCTIONAL IMPACT OF EACH CONDITION, PROVIDING ONE OR MORE EXAMPLES:

PRIVACY ACT NOTICE: VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, Code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA programs and delivery of VA benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58/VA21/22/28, Compensation, Pension, Education and Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. Your obligation to respond is required to obtain or retain benefits. VA uses your SSN to identify your claim file. Providing your SSN will help ensure that your records are properly associated with your claim file. Giving us your SSN account information is voluntary. Refusal to provide your SSN by itself will not result in the denial of benefits. VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by a Federal Statute of law in effect prior to January 1, 1975, and still in effect. The requested information is considered relevant and necessary to determine maximum benefits under the law. The responses you submit are considered confidential (38 U.S.C. 5701). Information submitted is subject to verification through computer matching programs with other agencies.								
RESPONDENT BURDEN: We need this information to determine entitlement to benefits (38 U.S.C. 501). Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 30 minutes to review the instructions, find the information, and complete the form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. You are not required to respond to a collection of information if this number is not displayed. Valid OMB control numbers can be located on the OMB Internet Page at www.reginfo.gov/public/do/PRAMain . If desired, you can call 1-800-827-1000 to get information on where to send comments or suggestions about this form.
